

333

HYDRAULIC EXCAVATOR

Engine Power

ISO 14396:2002

195 kW (261 hp)

ISO 14396:2002 (DIN)

265 hp (metric)

Operating Weight

32 600 kg (71,800 lb)

Meets China Nonroad Stage III emission standards, equivalent to U.S. EPA Tier 3 and EU Stage IIIA.

The Cat® 333 Hydraulic Excavator increases your productivity with more digging force, while reinforced structures make the machine more durable for tough applications.

THE NEW CAT® 333

DURABLE. RELIABLE. COMFORTABLE.

NEXT GENERATION EXCAVATORS

Cat excavators match your performance needs to bring you:

- + OPTIMAL PERFORMANCE
- + ENHANCED COMFORT
- + HIGH DURABILITY

Ready to help you make your business stronger, Cat excavators give you new ways to get the most work done at the lowest cost, so you can put more money in your pocket.

WE'VE GOT **YOUR BACK.**

BACK PAIN IS ONE OF THE MOST COMMON REASONS PEOPLE MISS WORK.*

NEW CAB:

All controls are in front of the operator. That means almost no twisting is required.

*SOURCE: [HTTPS://WWW.NINDS.NIH.GOV/DISORDERS/PATIENT-CAREGIVER-EDUCATION/FACT-SHEETS/LOW-BACK-PAIN-FACT-SHEET](https://www.ninds.nih.gov/disorders/patient-caregiver-education/fact-sheets/low-back-pain-fact-sheet)

LOW COST PER HOUR

Work longer without the need to stop with extended maintenance intervals. Smart mode automatically matches engine speed and hydraulic power to demand for the highest fuel efficiency in any application.

UP TO 7% MORE PRODUCTIVITY¹

Increased bucket and stick forces and larger bucket give you more digging force for maximized productivity.

DESIGNED FOR TOUGH APPLICATIONS

Reinforced structures, wide track gauge for added stability, and increased durability help you to power through big jobs.

¹ Compared to 330 and will depend on front part selection.

CAT EQUIPMENT MANAGEMENT TECHNOLOGY TAKES THE GUESSWORK OUT OF MANAGING YOUR EQUIPMENT

Cat equipment management telematics technology helps take the complexity out of managing your jobsites – by gathering data generated by your equipment, materials, and people and serving it up to you in customizable formats.

PRODUCT LINK™

Product Link™ collects data automatically and accurately from your assets – any type and any brand. Information such as location, hours, fuel usage, productivity, idle time, maintenance alerts, diagnostic codes, and machine health can be viewed online through web and mobile applications.

VISIONLINK®

Access information anytime, anywhere with VisionLink® – and use it to make informed decisions that boost productivity, lower costs, simplify maintenance, and improve safety and security on your jobsite. With different subscription level options, your Cat dealer can help you configure exactly what you need to connect your fleet and manage your business without paying for extras you don't want. Subscriptions are available with cellular or satellite reporting (or both).

Sites where excavators typically work are rugged and challenging. That's why it's important that the cab protects the operator as much as possible from the fatigue, stresses, sounds, and temperatures of the job.

CAB TAKES THE HARD OUT OF WORK

ERGONOMIC CONTROL LAYOUT

Controls are positioned to reduce fatigue and straining movements to help keep you operating at your full potential.

VISIBILITY

The windows and lower front, right, and rear profile of the machine give outstanding visibility to the work area without the strain of constantly leaning forward.

BLUETOOTH® CONNECTION

Bluetooth® integrated radio allows for seamless mobile phone connection to listen to music, podcasts, and hands-free calling.

RELIABLE WITH HIGH DURABILITY

In addition to reinforced booms and sticks, a huge difference in overall Cat machine durability is the undercarriage. It is the link between the ground and upper body, and it absorbs many of the stresses between them. The 333 undercarriage is built with many heavy-duty reinforcements:

- + HEAVY-DUTY TRACK ROLLERS
- + HEAVY-DUTY TRACK LINK
- + HEAVY-DUTY FINAL DRIVES
- + HEAVY-DUTY TRAVEL MOTOR GUARDS
- + HEAVY-DUTY RECOIL SPRINGS
- + HEAVY-DUTY SWIVEL AND SWIVEL GUARD

Add in a wider track gauge for more side stability, a reinforced swing frame, and counterweight support, and you have an excavator that will stand up well in tough applications.

KEYLESS PUSH START

Start the engine with the push-to-start button or the unique operator ID function.

MACHINE SETTINGS

Access the operator manual at your fingertips, as well as the power mode selector to keep productive while using less fuel.

TOUCHSCREEN MONITOR

Use the standard 203 mm (8 in) touchscreen monitor to adjust your heating/cooling settings for more comfort or to view your machine information.

JOYSTICK PREFERENCES

Make moving the excavator much easier with Cat Stick Steer option. Simply push a button and use one hand to travel and turn instead of both hands or feet on levers or pedals. Program in your preferred power mode and joystick preferences with your operator ID. Once you enter in your operator ID, the excavator remembers your settings each time.

SERVICE REMINDERS MADE EASY

Boost productivity with proactive service reminders. Our new integrated vehicle health management system alerts the operator with step-by-step service guidance, along with parts needed, so you don't experience any unnecessary downtime.

GROUND LEVEL ACCESS

Complete your daily machine checks entirely from the ground, minimizing the need to access the upper platform. Checkpoints include the engine oil dipstick, fuel water separator, fuel tank water and sediment drains, and cooling system coolant level check.

NEW FILTERS AND LONGER SERVICE INTERVALS

Consolidated filter locations make service faster. Hydraulic, air, and fuel tank filters have large capacities for long life. The electric cooling fans with auto reverse help to protect machine components in high debris applications. The in-cab monitor tracks filter life and machine intervals, so you always know when it's time for regular machine service. Hydraulic oil, engine oil, and coolant have extended service intervals compared to previous models.

INCREASE PRODUCTIVITY AND VERSATILITY WITH CAT ATTACHMENTS

You can easily expand the performance of your machine by utilizing any of the variety of Cat attachments. Each Cat attachment is designed to fit the weight and horsepower of Cat wheeled excavators for improved performance, safety, and stability.
